DETAILED ACTION

Election/Restriction

- 1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - Claims 1-48, 56-83, 88-103, and 117, drawn to apparatuses for treating glaucoma, classified in class 606, subclass 004.
 - II. Claims 49-55, 84-87, and 104-116, drawn to methods for treating glaucoma, classified in class 606, subclass 006.
- 2. The inventions are distinct, each from the other because of the following reasons: Inventions I and II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case, the methods as claimed can be practiced by another and materially different apparatuses such as a keratome, diamond blade or iridectomy scissors.
- 3. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

4. This application contains claims directed to the following patentably distinct species of (q-3/8) + 5 = 6/6 the claimed invention: inventions I has species A (claims: 1-18 and 88-103, see Fig. 24a) and B (claims 19-48, 56-83, and 117); and invention II has species C (claims 49-55, and 84-87, see Figs. 4a-4c) and D (claims 104-106, see Fig. 25).

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claims are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP §809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the

examiner finds one of the inventions unpatentable over the prior art, the evidence or admission

may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

5. A telephone call was made to the applicant's representative Jennifer Hayes on September

16, 2003 to request an oral election to the above restriction requirement, but did not result in an

election being made. Applicant is advised that the reply to this requirement to be complete must

include an election of the invention to be examined even though the requirement be traversed (37)

CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the

inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently

named inventors is no longer an inventor of at least one claim remaining in the application. Any

amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the

fee required under 37 CFR 1.17(I).

Any inquiry concerning this communication or earlier communications from the examiner

should be directed to A. Farah whose telephone number is (703) 305-5787. If attempts to reach

the examiner by telephone are unsuccessful, the examiner's supervisor, Linda Dvorak, can be

reached on (703) 308-0994. The official fax number for the group is (703) 872-9302; the fax

number for After Final is (703) 872-9303; and the Examiner's Desk-top fax is (703) 746-3368.
